

Xavier Leonard

Entry-Level Full Stack Developer

Full Stack web developer leveraging a background in education and entrepreneurship to build a more intuitive user experience on the web. Currently earning a certificate in full stack development from the Georgia Institute of Technology - Coding, with newly developed skills in JavaScript and responsive web design. Known as an innovative problem solver passionate about developing apps with a focus on mobile-first design. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web, and to gain more knowledge as a back-end developer.

WORK EXPERIENCE

Fulton County Schools System

Educator

Alpharetta, Ga | August 2020 – Present

- Received and prepped data from high level stakeholders using Excel to inform future project processes and procedures, leading to 60% growth on reading benchmark
- Implemented forecasting techniques to predict learning outcomes leading to 40% increase on benchmark assessments.
